OHIO AND INDIANA.

Ohio Election.

CINCINNATI, Oct. 10.—The election in this city opened and is proceeding quietly. A few repeaters in the Fourth Ward were identified and arrested. A very large vote is being polled. Both parties claim the advantage. Indications at this stage are that Matthews Republican, for Congress in the second district will carry the day, and Shibe, Democrat, in the first district.

CINCINNATI, Oct. 10, P. M.—Returns from 13 townships wards and precincts show the following changes on the vote for secretary of State Republican gains 2,092, Democratic gains 1,387, net Republican gain 805. On the vote for judges of the supreme court the net Republican gain is 425. There are about 1,700 precincts in the state.

Scattering returns showing changes from the vote of 1875.

Additional returns received up to 8 P. M. show a slight falling off on the gain for Barnes.

COLUMBUS, Oct. 10.—Returns so far are scattering and too meagre to bear any calculation on. In these scattering townships the votes show a Democratic gain of 858 and a Republican gain of 919 being a net Republican gain of 91 over the vote of last year.

Private dispatches received at Democratic headquarters from Cincinnati say the indications are that the vote has fallen short of their calculations.

Private dispatches from Cleveland say indications are that Cuyahoga will give a majority for the Republican ticket. Complete returns from the seventh ward of Columbus show over 100 Democratic gain.

Additional returns received at Cincinnati up to 9:30 P. M., show a slight falling off in the gain for Barnes.

COLUMBUS, Oct. 10.—In Athens county 3 townships give Barnes 1147, Bell 732, Republican gain 58. In Auglaize county 3 townships give Barnes 458, Bell 241; Democratic gain 38. In Belmont county 3 townships give Barnes 665, Bell 601, Rep gain 32. Butler county, 5 townships give Barnes 522, Bell 1,322; Dem gain 185. Clinton county, 8 townships, Barnes 1,652, Bell 880; Rep. gain 78.

CINCINNATI, Oct. 10—1215 P. M.—The Democrats here claim Hamilton county and are very jubilant. It will require an official count to determine the result. The returns come in slowly.

COLUMBUS, Oct. 10.—Green county 3 townships, give Barnes 959, Bell 350; Dem. gain, 77. Quincy county, in four townships the Rep gain is 72. Hamilton county, nine precincts, Barnes 1,970, Bell 1,671; Dem gain 15. Harrison county, seven townships, Barnes 1,459, Bell 815; R gain 162. Stark county, twelve townships, Barnes, 3,027; Bell, 3,032; Rep. gain, 97.

Returns received up to 12 o'clock from 621 townships and wards, show gains for Barnes, Republican candidate for secretary of State over the vote for Governor last year of 7,000, and over Democratic candidate, 6,856, being a net Republican gain of 1,014. This includes twowards in the city of Cleveland, and three precincts of Hamilton county. If the rest of the State shows the same relative gains, the Republican majority in the State will be 10,000. If, however, Cuyahoga county should give a total Democratic gain of 2,000 as claimed, and Hamilton should give also further Democratic gains, the majority will be cut down to about 5,000. The returns from the country generally show Republican gains, while the cities give Democratic gains.

COLUMBUS, Oct. 10.—If Cincinnati, Cleveland and Columbus show Democratic gains it should be borne in mind that last year the Republican majority was 5,500. This is what the Republican committee claims, while the Democratic committee claims the State by a still larger majority. The returns received, however, show this result to be as given above. Each candidate for secretary of State runs ahead in his respective county in Sonamo county Barnes is scratched on account of his temperance principles. Little can be said of the members of Congress, save the probable defeat of Bunning in the second district by Matthews, and Hurd in the Toledo district by ex Gov Cox

Summit county, nine townships, Barnes, 3,649; Bell, 2,785—Dem. gain, 46 Trumbull county, twelve townships, Barnes, 2,862, Bell, 671—Rep. gain, 23. Tuscarora county, seven townships, Barnes, 1,471; Bell 1,672—Dem. gain, 8 Union county, seven township, Barnes, 1,400, Bell, 935—Rep. gain, 86. Van Wort county, three townships, Barnes, four hundred and fifteen, Bell, 289, Dem gain, 2 Union county, four townships, Barnes, 643; Bell, 78—Rep gain, 90 Warren county, five townships, Barnes, 2,634, Bell, 1,502—Rep. gain, 178; Washington county, twelve townships, Barnes, 1,897, Bell, 1,646—Dem gain 8. Wayne county, twelve township Barnes 1,948, Bell, 2,234—Dem gain, 111 Williams county, two townships, Barnes, 407; Bell, 634—Rep gain, 48 Wood county, nine townships, Barnes 681; Bell, 407—Rep gain, 58 Wyandotte county, Barnes, 1,412 Bell 1,679—Dem gain, 91

Comparison is made with the governor's election in 1875, when the Republican majority was 6,500 There seems to be no doubt that Foster of the Sandusky district has been reelected His friends claim a larger majority for him than two years ago

Later returns from Dayton show Democratic gains, which further reduce the Republican majority.

TOLEDO, Oct. 10.—The election in this city was very quiet and orderly. Majority for the Republican State ticket 700, and for Cox for Congress, 500. The vote is the largest ever polled Lucas county will give the Republican State ticket 1,400 majority and will give the Republican Congressional ticket over Cox 500 majority

Returns from 710 townships and wards including five wards of Cleveland and all of Columbus and Dayton show Barnes' gains to be 9,915, Bell's gains 8,875,—net Republican gain of 1,040 Nothing of special from Cincinnati The Democrats have probably elected a Congressman in the 1st, 2d, 4th and 7th, 12th, 13th and 14th The Republicans have probably carried the 3d 5th, 8th 9th, 10th 11th, 15th, 16th, 17th, 18th, 19th, 20th and 21st districts. Of the 20th, ten townships and five wards in Green county, give Barnes 3,611 Bell, 2,166

COLUMBUS, Oct. 11—2 A. M.—At this hour we have returns from 700 townships, wards and precincts in Ohio, including the city of Columbus and 5 wards in Cleveland Barnes gains 9,377 and Bell's 8,176 a net Republican gain over 1876 of 1,000. The above returns from townships in 80 out of the 88 counties in the State but little is known of the result for Congress The Democratic committee claim the election of Snyder and Hamilton in this county. The Republicans claim the re-election of Foster in the 20th district and Clifton precinct, in Athens township to hear from, which are counted as last year, and there is no change in the county.

Indiana Election Returns.

INDIANAPOLIS, Oct. 10.—Reports at noon from all parts of the state show the election is progressing quietly, with indications of a full vote. The vote last year was 377,700 cast The vote in 1872 for governor was 367,700 with a Democratic majority of 1,118. The vote of 1874 was 317,6 with a Democratic majority for secretary of state of 17,259. In 1871 the Democratic candidate for secretary of state received 16,258 and scattering 2,297. The ratio which will be sent to night, will show a comparison by counties and a total Democratic gain of 2,000 as claimed, and Hamilton should give also further Democratic gains, the majority will be cut down to about 5,000. The returns from the country generally show Republican gains, while the cities give Democratic gains.

COLUMBUS, Oct. 10.—If Cincinnati, Cleveland and Columbus show Democratic gains it should be borne in mind that last year the Republican majority was 5,500 This is what the Republican committee claims, while the Democratic committee claims the State by a still larger majority The returns received, however, show this result to be as given above. Comparison is made with the governor's election in 1875, when the Republican majority was 6,500 There seems to be no doubt that Foster of the Sandusky district has been reelected His friends claim a larger majority for him than two years ago

Later returns from Dayton show Democratic gains, which further reduce the Republican majority.

TOLEDO, Oct. 10.—The election in this city was very quiet and orderly. Majority for the Republican State ticket 700, and for Cox for Congress, 500. The vote is the largest ever polled Lucas county will give the Republican State ticket 1,400 majority and will give the Republican Congressional ticket over Cox 500 majority

Returns from 710 townships and wards including five wards of Cleveland and all of Columbus and Dayton show Barnes' gains to be 9,915, Bell's gains 8,875,—net Republican gain of 1,040 Nothing of special from Cincinnati The Democrats have probably elected a Congressman in the 1st, 2d, 4th and 7th, 12th, 13th and 14th The Republicans have probably carried the 3d 5th, 8th 9th, 10th 11th, 15th, 16th, 17th, 18th, 19th, 20th and 21st districts. Of the 20th, ten townships and five wards in Green county, give Barnes 3,611 Bell, 2,166

COLUMBUS, Oct. 11—2 A. M.—At this hour we have returns from 700 townships, wards and precincts in Ohio, including the city of Columbus and 5 wards in Cleveland Barnes gains 9,377 and Bell's 8,176 a net Republican gain over 1876 of 1,000. The above returns from townships in 80 out of the 88 counties in the State but little is known of the result for Congress The Democratic committee claim the election of Snyder and Hamilton in this county. The Republicans claim the re-election of Foster in the 20th district and Clifton precinct, in Athens township to hear from, which are counted as last year, and there is no change in the county.

Indiana Election Returns.

INDIANAPOLIS, Oct. 10.—Reports at noon from all parts of the state show the election is progressing quietly, with indications of a full vote. The vote last year was 377,700 cast The vote in 1872 for governor was 367,700 with a Democratic majority of 1,118. The vote of 1874 was 317,6 with a Democratic majority for secretary of state of 17,259. In 1871 the Democratic candidate for secretary of state received 16,258 and scattering 2,297. The ratio which will be sent to night, will show a comparison by counties and a total Democratic gain of 2,000 as claimed, and Hamilton should give also further Democratic gains, the majority will be cut down to about 5,000. The returns from the country generally show Republican gains, while the cities give Democratic gains.

EVANSVILLE, Ind., Oct. 10.—Election progressing quietly, both parties preserving excellent order, and have display of great activity A full vote will be polled—larger perhaps than ever before

CHICAGO, Oct. 10.—The Journal's Indianapolis special says both parties seem satisfied with the aspect of affairs, although the Democrats are badly beaten all around The careful and complete preparations of the Republicans for a fair election broke the Democratic game of fraud, and thus for there appears to be perfect agreement in carrying out the armistice agreed upon between the mayor, governor and leading citizens The Republicans confidently expect 1,500 majority in the county, and hope for a higher majority in the northern wards There is much scratching in favor of Harrison—the respectable Democrats taking Williams off by the score. Harrison will run considerably ahead in his own city Athletes from the state generally in town quite a full election A large number of roughs finding this city too hot for them, left on the morning trains. They may vote elsewhere, but will probably go straight home

CHICAGO, Oct. 10.—A synthesis of the extraordinary vote being polled in Indiana it is reported that the total vote has increased over 9,000 from that of 1875

INDIANAPOLIS Oct 10—4 P. M.—The ticket being very large the returns will be late in coming in A very heavy and increased vote was polled all over the State Both parties are confident and the betting is about even

INDIANAPOLIS, Oct 10.—The returns from 2 townships and wards in five counties give a net Republican gain of 174 The same places in 1874 gave a net Democratic majority of 135. The same places in 1872 gave a net Democratic majority of 15 Returns from 10 townships and wards in 7 counties give a net Rep majority of 180, same places in 1874 gave a Dem. major ity of 131, same places in 1872 gave a net Dem majority of 29

CINCINNATI, Oct. 10.—Private dispatches from Democratic sources affirm very positively that Williams is elected in Indiana. The only reliable news received yet from that State.

INDIANAPOLIS, 12:15 P. M.—Returns from 15 townships and wards in 9 counties give a net Rep. maj. of 230, same places in 1874 gave net Dem maj of 185 same places in 1872, Dem. maj. of 127

TERRE HAUTE, Ind Oct 11.—2 A. M.—There will be no official returns to-night from here It is said the D. Davis, Independent greenback nominee for Congress, has carried this county and that Will Heams leads Harrison 400 for Governor

INDIANAPOLIS, Oct 11—3:55 A. M.—Returns from 50 townships and wards in 31 counties net Democratic majority, 13. Same places in 1874 gave net Democratic majority of 796, and in 1872 of 324.

INDIANAPOLIS, Oct 11, 2 A. M.—Returns from 800 precincts in Ohio including the great portions of the inland and Cleveland, show a gain of 1,470 for Barnes, Republican, for Secretary of State, over the vote of 1875. In Indiana the ticket is so long and the vote so large that counting progresses slowly. It is now expected that the vote in Indianapolis will be counted before Wednesday noon.

INDIANAPOLIS, Ind., Oct. 10.—Returns from twenty townships and wards in seventeen counties give a net Republican majority of 676. The same places in 1874 gave a Republican majority of 73 The same places in 1872 gave a Republican majority of 193.

JEFFERSONVILLE, Ind., Oct. 10.—The election passed off without any serious trouble. Both parties worked faithfully the entire day. Very little bunglings was manifested. At the polls there were minor disturbances, but the large presence of deputy sheriffs appointed by sheriff Howard and the special policemen put on by mayor Warder quickly arrested all turbulent spirits. No official returns will probably be made from this city to night, as the ticket is very long.

About 4 o'clock this afternoon quite a number of United States deputy marshals in each ward pinned their badges on and circulated timidly around as though they desired something to do, but failed to find it, and as the polls closed they were withdrawn.

The reports thus far are very meagre In 17 townships and 15 counties in which the full vote has been received the Dem. gains are 152 and Rep gains 222 on the vote of '74, and in ten additional townships reported the Dem. gains are 245, Rep 27. The Democratic central committee claim the state by from 5,000 to 6,000, while the Republicans claim they have carried the State, but don't fix any majority

P. M.—Returns from 80 townships and wards in 22 counties give a Republican majority of 636; same places in '74 gave a Rep majority of 99; same places in '72 gave net Rep. maj. of 215.

Chicago Mining and Stock Exchange.

SAN FRANCISCO, Oct. 10.—It is reported that twenty-five Chicago capitalists, each contributing $50,000, have combined to form a new mining board in Chicago, to be called the Chicago Mining and Stock Exchange. The institution may be expected to open for business at an early date. Approved stocks will be listed to a nominal extent. It is thought that the new enterprise will take well in Chicago, owing the speculative nature of its citizens.

Suicide.

SAN FRANCISCO, Oct. 10.—Yesterday morning, about 8 o'clock, at Sonoma, Gen. Enrique Cerruti, committed suicide by taking strychnine. He had been employed at San Francisco by H. H. Bancroft, historian, in the work of translating. For some time past he had been engaged in speculating in stocks, almost invariably losing. He had several times threatened suicide, but it was not believed he would carry out his threat. A note left says he committed the act to save his honor.

Frauds on the Election Laws.

This afternoon U. S Commissioner Oberne rendered his decision in the case of Jas Hanson and Wm. Thompson arrested for fraudulently attempting to register. In the case of Hanson, the commissioner said he thought from surrounding circumstances there was a probability of his having been naturalized before his coming to the city and he would be allowed to go. Thompson was held to bail in the sum of $300 in default of which he was lodged in jail to await the action of the grand jury. To day, the marshal arrested Louis Brennener and Fred Granforth on similar charges. They are held to await examination before the commissioner.

Grand Lodge F. and A. M.

Grand Lodge F. and A. M. of the State of California commenced its 27th annual communication in King Solomon's hall, Masonic Temple at 10 o'clock this morning. The attendance was very large. After the opening exercises and the appointment of a committee on credentials, the Lodge was called off till 2 P. M. At that hour Grand Master Brown delivered his address, which was referred to different committees.

Railway Matters.

SAN DIEGO, Oct 10.—The news that the Central Pacific people had organized a company to be laid from Los Angeles to this place, and the fact that the Texas Pacific Co have engineers in the field looking for a more practicable route directly east from here, has given our citizens considerable encouragement of a better time coming. It is reported that Col. Crawford has found a route which will materially reduce the former estimates on a direct route.

The new Sultan is a man of a prudent and saving turn. In Abdul Aziz's time his kitchen cost more than $200,000 a month. Abdul Hamid has changed all that; the cost has been reduced one half. The Sultan has also reduced the ridiculously profuse expenses of his adopted mother, thus making a saving of $750,000 a year.

Hop picking is about done in the Puyallup valley, and the growers are now just as busy in curing, packing and starting to market.

STATE FAIR.

SIXTEENTH ANNUAL FAIR OF THE OREGON STATE AGRICULTURAL SOCIETY

Second Day.

FAIR GROUNDS, Oct. 10, 1876.

At the hour of closing my report yesterday there was a steady stream of wagons arriving at the camping grounds, and this morning the attendance is greatly augmented. Among the arrivals was

CAPT. H. J. M'CORMICK'S COMPANY,

And considerably surprised the people on awaking this morning to find a multitary camp alongside the pavilion, but it is an interesting feature to the cosmopolitan congregation. The

GATE AND OTHER RECEIPTS

Yesterday amounted to $5,000, and is greater than of any other year for the first day. The indications are that the fair will be a grand success both financially and—well—exhibitionally, I believe is the word, but not readily found in the dictionary.

Everybody is busy, as well as the supposed ubiquitous reporter, and the way things for competition are being placed in position is a caution to some, especially as the superintendents of the different departments have taken the matter in hand themselves this year.

CATTLE.

This department is much better than last year, both in number and condition. In conversation with fine stock breeders I have been informed that the stock bred in this State from imported stock have materially improved, both in size and healthiness, and stand the climate better, taking less feed to keep them in condition. We also noticed some new exhibitors, proving conclusively that the business of improved stock raising is growing in interest and being taken up by men of more limited means than those who first entered the business, or at least made it a single specialty. The first collection that we found was that of

HENRY MYER,

Of Dixie, Polk county. Hannibal, shorthorn bull three years old, imported from Kentucky and bred in that State by Mr. Kincade, an extensive dealer in fine stock. This animal has been entered for the sweepstakes, and weighs 1,990 pounds. Jack is a grand red shorthorn, one year and six months old, Oregon bred; a good animal. Rosa, shorthorn graded 2-year old heifer, light roan color; possesses good points. Lacy and Queen are a couple of eight months' calves, graded, and will pass muster. Dave, graded shorthorn bull 10 months old, red color, and shows careful breeding. Beauty is eleven month's old shorthorn graded heifer, weighs 384 pounds, and is highly prized by Mr. Myer. The last above mentioned fine herd has also been entered as a herd for the premium of herds, and will make the other exhibitors rustle to carry it

THE EASTERN ELECTIONS.

Returns from the Ohio and Indiana elections are so incomplete that nothing like an accurate statement of the results can be made. Enough is known, however, to enable us to say with certainty that the Republicans have made considerable gains in both States. Indiana is very close. Both parties claim the victory. Possibly the Democrats have carried the State, electing "Blue Jeans" Williams by a very small majority. They carried the State in 1872 by 1,148 in the election for Governor, and for Secretary of State in 1874, 17,252. The Republicans carried the State in the Presidential election in 1872; immediately after the Democratic victory in October, by 22,513.

In Ohio a Republican majority of 7,000 to 10,000 is indicated, against a majority of 5,509 for Governor Hayes last year.

WHAT AND WHOM TO OPPOSE.

Commodore Maury, afterwards Admiral Maury, of the Confederate navy, in a letter to the London *Morning Herald*, estimates the losses of the South during the war as follows:

By emancipation	$3 000,000,000
Expenses of the war	2,000 000,000
Destruction of private property	1,000,000,000
Additional taxation imposed by the victor for payment of Federal war debt, say $10,000,000 per annum, equal to interest on	1,000,000,000
Total	$7 000 000 000

It will be observed that this does not include any part of the debt incurred by the Confederacy as a nation. If Mr. Tilden should be elected, and the Democrats to-week have a majority in the House and Senate, these are the claims for which the South will demand payment. The Democratic platform contains nothing adverse to the payment of them, and already claims amounting to hundreds of thousands of dollars have been made. The payment of the Confederate debt, as such, may never be demanded; but a virtual payment of it may be obtained by means of claims for losses in which the actual loss will be greatly magnified. We published some time ago a sample of the claims already made, which is worth studying.

It is by acts such as these that the Southern people expect to recover the wealth lost in the effort to destroy the Union. To discover and foil these acts will be the duty of the members of the next Congress. The people who are now about to choose a man to represent them in the lower house, should reflect whether they will the Southern losses paid by the Government, and should ask themselves whether the man they vote for will support or oppose their payment.

The people of this State do not want the South's claims, amounting to seven thousand million of dollars paid, or any part of it. How would the present candidate vote? No one doubts what the Republican candidate, M. Williams, would do. He would oppose them—one and all—to the very last. But Mr. Lane, would he? We refuse to say that if the majority of Mr. Lane's party should favor the payment of these claims, he would favor it, just as if his party opposed the payment, he would oppose it.

If we read the signs of the times aright, the next Congress will be one notable in the annals of our history. The condition of affairs in the South is such that in any event, whether Hayes or Tilden be the next President, something must be done to put an end to the discussions existing there. The next Congress will have to do this, and there will be very great need of men in it who will have the firmness and moral courage, as well as ability, to act wisely and patriotically. If Mr. Tilden should be elected the need of men possessing these qualities will be still greater, for, to fairly represent the people of Oregon, the member of Congress from this State will have to oppose manufully many bills approved of by the Democracy that will come before that house. It is exceedingly doubtful whether any Democrat could be found who will have the courage to face and differ with his party when that party was proposing to pass bills which his constituents rightfully opposed. Mr. Lane certainly would not, if we may judge of his future conduct by his past. For instance, Mr. Lane left here to attend the last Congress a hard money man and returns a soft money man, or at least he voted with his party for the repeal of the resumption clause. He has not shown that firmness which would be requisite in a Democrat who meant to fairly represent the State. There is strong evidence to support the charge that the South is determined, if *possible*, to regain the control of the government, and no one can doubt that, if the South should succeed, the events of 1859 and 1860 will be re-enacted. We do not believe the people of Oregon desire to aid in bringing those unhappy times back again. Therefore they should oppose Mr. Lane's election, not solely in the interest of the Republican party, but in the infinitely greater interest of the peace and well being of the country.

THE METRIC SYSTEM.

The operations of commercial men are often inconvenienced by the differences between the systems of weights and measures in different countries, some times in different parts of the same country. For example, we reckon the produce of our grain fields by the cental, while in Chicago it is by the bushel. We measure wine by the gallon of liquid measure and beans by the gallon of dry measure. We weigh gold with one set of weights, drugs with another and iron with a third. On land we measure distances by miles of one length and on sea by miles of another. This is within the limits of our country; when we pass to other countries the confusion is worse confounded, or rather was for now a common system is being adopted which is so simple and comprehensible that no mistakes or confusion can take place. This system is known as the Metric or decimal system. It is so called because the unit of measure in the metre, or the forty millionth part of the circumference of the earth measured over the poles. The length of the metre is 3 2808992 English feet. In this system the multiples are expressed by the Greek prefixes *deca*, meaning ten times, *hecto*, 100 times, *kilo*, 1,000 times, and *myria*, 10,000 times. The decimal parts are expressed by the Latin prefixes *deci*, *centi*, and *milli*. This does away with the old nomenclature of inch, foot, yard, pole, furlong, mile, league, with their various multiples. The unit of square measure is the decametre or 100 square metres. The unit of liquid measure is the litre, the cubic decimetre equal to 61.027025 cubic inches, or ¼ 22 of imperial gallon. The unit of weight is the gramme, which is the weight of a cubic centimetre of distilled water at the temperature of 39.2 Far. it is equivalent to 15 4325 grains Troy.

When, therefore, a person has learned the significance of metre, grammie and litre, he has learned the whole system. All the Contenental nations of Europe have adopted this system and it has been legalized in England and the United States. It would be a good thing if it were adopted to the exclusion of all other systems.

No wonder Mr. Lane was "indisposed" at Oregon City yesterday. Information from all the places where he and Mr. Williams have spoken leads us to believe he has been "indisposed" at every place, only the attack was unusually severe at Oregon City. He will in all probability continue to grow more "indisposed" from day to day till the election, and expire at that time.

The Cooper and Carey movement up the valley is taking definite shape and assuming the proportions of a political party. Of course those who are going forward in the movement do not expect to win this contest, but they look forward to results in the future.

POLITICAL DISCUSSION AT CORVALLIS.

CORVALLIS, Oct. 8, 1876.

TO THE EDITOR OF THE OREGONIAN:

We had two joint political discussions here during the past week. First, on the 5th, between Hon. Richard Williams and Hon. L. F. Lane. Both spoke an hour and a quarter each. Williams led off in an hour's speech, during which he was interrupted several times, but nevertheless he sustained himself well and made an able political argument. Then Mr. Lane followed in a speech of an hour and a quarter. He made a fair argument, but not strong or forcible. During the time he took occasion to rather intimate that Mr. Williams perverted, or did not state fairly, the action of the House of Representatives in relation to an amendment offered by Mr. Blaine. Mr. Williams, in his closing remarks, fully vindicated his position in the outset, and had decidedly the advantage of Lane in the whole argument.

On the evening of the 7th Hon. J. W. Watts, Republican Presidential Elector, and W. S. McFadden, of this town, had a political discussion of two hours and a quarter between them. Dr. Watts led off in an hour's speech, mainly on the two platforms, showing with much force and judgment the falsehoods and prevarications contained in the Democratic platform. Mr. McFadden, who is no politician or acquainted with the history of political parties or men, immediately exhibited that he was by no means capable of meeting the doctor. He was, in fact, apparently greatly embarrassed throughout his entire hour, and his friends were no doubt greatly annoyed, and if he had an enemy present he was greatly delighted to see him make such an utter failure. It will be sufficient hereafter in this part of the country, if a man should get badly beaten in discussion, to say that he is "McFaddened." Dr. Watts closed the debate in fine style.

Everything looks well in Benton county for Hayes and Wheeler and Dick Williams. B.

Uncle Jimmy Blue Jeans is about the poorest and weakest demagogue this country has ever produced, and it has brought forth first and last a pretty liberal crop. He arrived at a hotel at Anderson, Indiana, the other day, and when the landlord went to order his supper, humble Uncle Jimmy said: "I wish you would have my supper set in the kitchen. I am more used to the kitchen, and it would be more agreeable to me." Such a man would not feel at home in the Governor's chair—he should be left in the kitchen.—*N. Y. Tribune.*

RUPTURE!

No More Metallic Trusses Used!

No More Suffering from Iron Hoops or Steel Springs!

THE SUPERIORITY OF OUR ELASTIC Trusses over the rigid Iron Hoops, which in former days were the only resource of the ruptured, admits of NO ARGUMENT.

By means of this appliance the pressure on the Rupture itself can be made uniform and continuous, and to the extent required in each case, until a slight inflammation of the parts is secured, and the consequent effusion of lymph which is essential to a healing process, and from this time to the conclusion of the treatment, the pressure, being entirely within the control of the patient, can be lessened daily as the adhesion progresses and the body becomes sound. All cases of reducible Hernia are permanently relieved without regard to the age of the patient or the duration of the injury, while in its action it is wholly free from all the cruelty that has characterized the treatment of the malady with torturous Metal Trusses, from the earliest age to the present day. Your attention is called to the following facts:

1st—There are no springs to press upon or to injure the back.

2d—It is simple in construction, and not liable to get out of order.

3d—This instrument is worn with perfect ease while riding horseback.

4th—The fixture is retained and the pressure the same while in any position.

5th—It has none of the injurious results of metallic Trusses.

6th—It will perform radical cures when all others fail.

7th—It is worn with ease and comfort night and day, which cannot be said truthfully of an metal Truss whatever.

Experience shows that all tempered spring trusses necessarily press upon and often diseases parts of the body that before were in a perfectly healthy condition. Lumbago and other equally distressing ailments are not unfrequently the out growth of such pressure, and in view of this fact it becomes a matter of decided consequence to avoid like calamities, if possible.

Examination Free. The closest scrutiny of physicians solicited.

Beware of Rogus articles called Elastic Trusses. Dr. R. P. WARE, Inventor and Patentee of Elastic Trusses. All parties infringing either by sale or manufacture, will be dealt with in such manner as the law provides.

FISH! FISH!—In passing by C. A. Malarkey's market, corner Stark and Second streets, last evening, we observed the finest assortment of fish we have ever seen in Portland, consisting of Puget Sound fish of the following varieties: Rock cod, tom cod, smelt, flounders, soles, herrings, rock trout, salt water trout, salmon, and a few other names unknown. He had also a fine large ling cod, a beauty; Cowlitz river trout, and sturgeon were also there in abundance. Mr. Malarkey tells us he is now in receipt of Puget Sound fish three or four times a week, and Cowlitz river trout daily.

"HOME'S A GOOD THING TO HAVE."—We noticed the agent of the new Home quite busy yesterday filling orders for this popular machine. Mr. Traver informs us that he will not exhibit at the fair this year. He received 35 machines the first of the month, 40 more will arrive in a few days. Which proves that this *favorite machine* gives universal satisfaction.

LEGISLATIVE NOTES.

TIME WASTED IN IDLE COMPLAINTS—TROUBLE WITH TAXES—THE PENITENTIARY COMMITTEE'S REPORT—CORPORATIONS.

[FROM OUR SPECIAL CORRESPONDENT.]

SALEM, Oct. 10, 1876.

One would think to hear the comments that are made in the Lower House of this legislature concerning the woeful waste of precious time, that some of the members at least were very anxious to get a great deal of business done before adjournment and were wonderfully solicitous about the people's interests. Some members have expressed a willingness to work until 12 o'clock every night and begin at 8 in the morning, a streak of industry which it would have been very well had it come over them before three fourths of the session had gone. There is, as was remarked by a member the other day, "a big contract before this legislature if it is to finish up all it has undertaken."

THE SENATE

So far has dispatched business a little more rapidly than the Lower House, but still the more important matters—those upon which the greatest amount of attention should be bestowed—have as yet occupied very little of the time of this dignified body. It has labored very hard to enact some law on the subject of taxes, assessments and matters connected therewith, but as yet has brought forth nothing that will materially improve the present law on the subject. It now looks very much as if the same loose system prevailing hitherto in this regard will continue hereafter for anything that this legislature is likely to do.

The House has killed the bill which proposed to tax all personal property of private individuals, not even exempting $500 as now, and well as all real estate belonging to religious, charitable and benevolent organizations, which is not occupied for such religious, charitable or benevolent purposes, and if any reform on the subject of assessment is to be effected, the great diversity of opinions on the subject which the discussion on the bill above mentioned drew out in the lower House convinced us that such reformatory measures must come from the Senate.

A REPORT

Has been presented to the two houses by the joint committee appointed to visit the penitentiary and inspect the books and accounts of the officers of that institution. The committee has labored very hard for nearly four weeks and, we are informed, have taken *four full pages* of testimony on the subject of the management of the institution. After so long a time and such a mass of testimony their report throws a remarkably small amount of light upon the question upon which the taxpayers of the State are most interested, and that is whether this institution cannot be conducted at less expense than at present. We hear no fault found with the management and care of the prisoners, or the way they are clothed and fed or otherwise treated, but there are a great many people who feel that 200 able-bodied men who are constantly employed at some useful occupation when they are not sick and who are reported to have been in the almost uninterrupted enjoyment of good health during the past two years should cost the State $44,000 in that time. The committee says the penitentiary has cost this actual amount, though there is a good deal of property on hand which, it is claimed, should be offset against this sum, and by this system of "offsetting" with "sand, straw and brick dirt on hand" this year, and with the same material converted into "brick on hand" next year, and the year after, "bills receivable for brick sold," and the fourth year perhaps "cash received for brick sold." So you see by a system of book-keeping which some men may not be able to comprehend, this "offsetting" may be prolonged almost *ad infinitum*, or at least to the end of the Watkinds dynasty. There are a few men in the legislature who appear not to understand why everything about the prison, at the end of the year, should be reckoned as so much to be offset against the cost of running the institution, and these men proposed last Saturday, when the report of the investigating committee was submitted to have the evidence upon which the report was based, printed, and moved in the lower House that 150 copies thereof be printed with the report. The motion was opposed by the committee ostensibly, on the ground of economy, but prevailed nevertheless. If the testimony amounts to anything there will be but little complaint about the cost, as we understand that that part of it which is preserves is very brief and is contained in four pages of foolscap. We may learn something from it when it comes from the State printer, but we venture the prediction here before hand that it develops no startling facts and the public has not need to "bate its breath" while that testimony is being printed. Watkinds himself says "they won't know as much from the testimony as from the report," and Williams is probably "korect." It is rather loudly whispered that the end of the investigation into penitentiary matters has not been reached yet, and that the warden, who was retained in office by Watkinds after he knew said warden to be guilty of gross frauds as he charges will be called upon to explain, and strange to say the warden is not only willing but anxious to see and explain. It is promised that Watkinds shall be made to bear his share of odium which mobilesome parties have thrown upon the management of the penitentiary, and that those who occupied inferior positions and received less pay will not bear all the responsibility while he walks forth scotfree with the lion's share of the spoils. Myers, the warden who is charged by Watkinds with the "gross fraud is after the latter in good earnest."

But other matters aside, though the penitentiary is one of the

COSTLY NECESSITIES

In the State, it is by no means the only one. The keeping of the insane and the State printing are two other items that swell the account against that much abused and long suffering individual the tax-payer, and heap on his shoulders the burdens so heavy and grievous to be borne. These three items go far to consume the State revenue, and when they are provided for there is "barely enough for the officers" left, and for the next two years at least all internal improvements must expect but little or no State aid.

CORPORATIONS

Are a fearful "bug bear" to some of the assemblymen, and they seem to shape their action on the general principle that all corporations are wicked institutions and ought to be suppressed. The public can best judge whether some of the experience of the State has not justified this feeling on the part of her citizens. That some corporate bodies in Oregon have used their power against the interests and retarded the prosperity of the State is a fact not to be denied, but still the law made by the people's representatives gave all corporations existence and certain rights which are regarded as sacred as the rights of individuals. There has been, however, but little legislation accomplished this session that will affect corporations, though a great deal has been said of what ought to be done. The House passed a bill on Friday which, if the Senate should concur in, would necessitate the appointment of an agent in every county in the State in which a foreign corporation proposes to do any business. The bill provides this wholesale agency that persons who desire to sue such a company may have some convenient party upon whom summons may be served, and this passive power is all that is given to such agents by the bill. Apropos, to this subject is the proposition pending for legislation regulating freights and fares on the principal lines of transportation in the State. While we will not argue the power of the Legislature to do this, we cannot believe that the exercise of such a power if any exists at this time would be wise or beneficial to the interests of a State in such a condition as ours is now. Right or wrong, such legislation is regarded as deterrent to railroads and has lacking it been timely to its outrage further improvements of that character. Oregon has indeed had quite enough experience in the matter of a railroad corporation controlling her politics, sporting up and coming down a State and county official, but apply that day has apparently passed and no charge of this kind can be laid against the company now operating the railroads of the State. The people of Oregon have conditions to secure more facilities for transportation and travel both interior and with the outside world, to demand that anything be done that will discourage further investments in this direction by capitalists who are able to build the roads she cannot build herself.

Weber, of New York, received the highest award for sympathetic, pure and rich tone, combined with greatest power, as shown in the three styles, Grand, Square and Upright Pianos, which show intelligence and solidity in their construction, and pliant and easy touch, which at the same time answers promptly to its requirements, together with excellence of workmanship. CYRUS NOBLE DISTILLERY, 1st Dist., O.
CINCINNATI, April 1, 1876.

MESSRS. LILIENTHAL & CO.

Gentlemen—I have just returned from a trip through Kentucky, Ohio and West Virginia, undertaken for the purpose of examining the various distilleries in those districts, and I am now more than ever confirmed in the opinion, so often expressed to you, that your distillery is the most complete, and best conducted of any in the United States.

The careful selection of your grain, the purity of the water, the slower and more cautious method of distillation, is what gives the NOBLE WHISKY its superior qualities, and has gained for it the reputation which it universally obtains throughout the United States.

Gratified that the 29 years devoted to the distillation of the CYRUS NOBLE WHISKY, has been attended with such happy results, I trust I may be spared to continue my labors in its interest, and that of its many patrons and consumers.

I am, Gentlemen,
Yours faithfully,
CYRUS NOBLE.

TO THE PUBLIC.—The great reputation which our Cyrus Noble Whisky has enjoyed in medical practice throughout the Eastern States and Europe for a period of nearly 25 years, prompts us to bring it to the notice of the Public of the Pacific Coast for similar use.

Its absolute purity, having by analysis been found to be entirely free from FUSEL OIL, and the improved quality imparted to it by its being retained in store for at least from 5 to 6 years after distillation, has given to the Physician a remedy long sought for in his own Materia Medica.

The certificates we hold of its efficacious use in the treatment of cases where NERVOUS PROSTRATION exists and vitality is at a low ebb, as is frequently observed in fevers endemic to our country, of DYSPEPSIA, with its whole train of gastric troubles, of diseases of the LIVER and the BLADDER, of CONSUMPTION, affording effective and safe relief to the afflicted victim, and of putrescent diseases or blood poisoning, rendering its use as a disinfectant the sufferer from premature death, are all highly gratifying to us, and we believe we owe it to our numerous patrons on the coast to use every endeavor to introduce it here.

Very respectfully,

WEDNESDAY MORNING, OCT. 11, 1876

LETTER FROM UMATILLA.

MATTERS AND THINGS IN GENERAL, AND SOME IN PARTICULAR.

UMATILLA, Oct. 2 1876

TO THE EDITOR OF THE OREGONIAN.

The weather for the past fortnight has been unusually warm. Grain all threshed and stored away. Oats and barley a cent a pound. Wheat 25@45 cents a bushel, the price being governed by its proximity to or remoteness from transportation. There being no demand sheep and horses are not on the market. Beef cattle delivered at the Dalles are selling for 3 cents gross. The supply of peaches has transcended the demand. The crop was not of a superior quality owing, perhaps, to the varieties planted. As yet but few have planted the grape, but it has been fully demonstrated that grapes mature to perfection as to size, flavor and quality. Strange that nature has been so partial in the distribution of her wild fruits! The soil along the Umatilla and the climate are favorable to the growth and maturity of any and all the wild fruits so abundant in the Mississippi Valley, north of the Gulf States, and yet there is not one nut or berry to be found, that is edible, growing wild on the Umatilla.

Bruce Teel, a son of Dr. Teel, latterly of Lebanon, Linn county, was badly gored by a mad ox a few days since. He was driving the brute on horseback, when it became infuriated, turned, and with horns a-tilt, rushed at the horse Teel was riding. Ere the horse could escape the mad charge the bovine was upon him. Teel's left thigh receiving what was intended for his horse. He is under the care of his young wife, whose fond devotion anticipates his every want, and whose fervent love and sweet caresses rob the ugly wound of its power to give pain.

It will be a source of much pleasure to the many friends in Linn county of Mr. David Coffman to learn that he was most happily married recently to a widow lady, Mrs. Reeves of Pendleton. Long may they journey in the ways of love—in fact all the way—and may Mr. Coffman all be little ones.

I have not met a man that takes kindly to the election of L. F. Grover as United States Senator. It is a matter of great wonderment to the people east of the Cascades why it is that Grover, a man claiming to be Christian and a gentleman, will persist in retaining the [illegible] of [illegible]men as Bill Watkinds, Bob Thompson and Joe Osburn in the Oregon penitentiary. It is a well known fact that neither of these men is competent to keep the records of the penitentiary, hence they are kept by the convicts; or at least they were a few years ago. Ye admirers of Mr. Watkinds and L. F. Grover, when you read this

"Keep your nose upon your face,
It don't look well when out of place."

The moral status of these men, Watkinds, Osburn and Thompson, needs no comment. At some future time I shall refer to the records of the State Prison and its officers. I know many will not believe what I shall say, but I shall court contradiction. I should have given a statement of facts in my possession long since but for fear of the party lash. My fears have vanished and the people shall have the facts.
